

# LEWIS – THE FORTY MILE WINDFARM ?

- **Our Landscape ?**
- **Our Culture ?**
- **Our Heritage ?**
- **Our Wildlife ?**
- **Our Future ?**

THREE HUNDRED onshore wind turbines, some of the largest in the UK, are proposed for the Isle of Lewis. Along with their roads, quarries, substations and pylons, these developments will cause widespread damage to the island's landscape, designated areas and protected species, as well as our living environment.

Over 16,000 objections to these proposals have been lodged with the Scottish Executive so far.

Please help us to fight these environmentally damaging and unnecessary proposals. Send an objection to the Scottish Executive today!

WRITE TO: The Scottish Executive, Energy Consents Unit,  
2<sup>nd</sup> Floor, Meridian Court, 5 Cadogan Street, Glasgow, G2 6AT

OR: Pick up an objection letter [HERE](#) !

Moran taing – Many thanks
